

US Basket Racing Luxembourg Charter 2017/2018

The city of Luxembourg's only Basketball club «US Basket Racing Luxembourg» («RACING») has set as an objective the promotion of the game of Basketball in a safe and encouraging environment, especially for youngsters.

RACING's members such as its administrators, coaches, supporters, referees, officials, players and their parents are supposed to act jointly to achieve this objective. Our club board is open to all suggestions and ideas in order to improve !

WHAT WE OFFER :

The possibility to practice and play Basketball under the guidance of **devoted coaches** during the course of a season (September to May) for players aged 7 or older.

An additional sports health insurance covering costs caused by injuries on the Basketball court for players having completed a free medical checkup. We will take care of all **registration duties/costs** with the F.L.B.B. (Luxembourg Basketball Federation). A **free medical-check up** is offered and necessary for playing games.

Providing the best possible practice and home game **gym conditions** in cooperation with the Luxembourg-City sports administration in accordance with their rules.

Providing team and practice equipment (balls, uniforms...) for RACING games.

All RACING members will have **free entrance** (season ticket) to all our home games including men and women top teams.

WHAT WE EXPECT :

We expect all RACING players, coaches and officials to participate in practices and games being on time, with good sportsmanship, respecting Basketball's and the club's rules in order to **build valuable teams with good spirit.**

For all RACING members to pay the full seasonal **club fee (220 €)** before October 15, 2017 (for registered members). This fee is used to cover functional costs of the teams and is due entirely, also for late registrations. New members are requested to pay a **registration fee of 50 €**

RACING is a Basketball club and not an after-school nursery or playground for youngsters. As we are a non-profit organization, we expect **parents to provide support** for their children while learning the game and for our teams (as team officials, for transportation, taking care of team wear, moral support...). We also expect parents **not to interfere in coaches' work** and decisions.
